Message from the Editor

It is the fifth issue of InSight! And my delight continues to be the same that I had for the first issue. The world is still perplexed with COVID-19 with the rising number of cases but been firm to day-to-day normal business. New normal has left us lots of lessons for personal and professional life. Widening skill gap, mental health deterioration, change in the mode of learning, which are unusual to many, are hard to cope-up with. SRFMS tries its level best to keep in pace with these changes and arranged an array of programmes such as International Yoga Day, Union Budget 2022 , Role of administrators in mental health, medical camp for health workers. As usual, this issue is a mouthpiece of certain activities and achievements of SRFMS. Articles about digital health and robotics are worth reading in this issue. The very purpose of connecting with you through this In-Sight is not only to disseminate what we have been doing but also be advised on matters that take SRFMS forward on the road to success.

- Editor

Message from the Director

Healthcare delivery in India is ripe for disruptions. National Health Digital Mission that is known as Ayushman Bharat Digital Mission [ABDM] is promoting affordable access to healthcare professionals for the remote, resource-poor, and underserved villagers. This coupled with the burgeoning health tech start-up ecosystem promises the evolution of virtual hospitals, i.e., hospital-at-home [HaH] with remote patient monitoring and diagnostics. The “new normal” in healthcare delivery will be shaped by disruptive innovations that will improve the patient outcomes.

- Director

'E'ra of Healthcare

- Dr. Rajalakshmi Vel
Assistant Professor

'E' – thing rules our lives.

E-news, E-Commerce, E-Banking, E-Grocery, E-learning, E-Meeting, E-Consult and last but not the least E-dating are the trends in the post pandemic world. With India pressing the digital buttons for development of various sectors, the latest to join the E-bandwagon is healthcare industry. Digital has paved the way for contactless treatments and just-in-time decision making. Thanks to the proliferation of technology, the e-health market size is estimated to reach US\$ 10.6 billion by 2025. Some of the post pandemic shifts across the healthcare value chain are worth noting.

Digital solutions have offered an opportunity to healthcare providers to build hyper-scalable and sustainable models of healthcare delivery. There is a move from brick-and-mortar model of healthcare to click-and-mortar, a hybrid model combining the best of in-patient care and virtual care. The google trends daily search index for 'online doctor consultation' and 'tele consultation' peaked to 100 during COVID second wave in May and third wave in January.

The National health portal by the Government of India disseminates authentic health information allowing digital conversations on health issues. Government has set up AI enabled Chat bots to improve the state of healthcare in India. Sapio Analytics, an advisory firm of GOI has developed a Med Bot in regional languages to assist patients from rural areas. The company focuses on empathetic healthcare incorporating the local customs and beliefs of patients while providing treatment. On the other hand, bots installed by private hospitals help answer user queries related to departments, speciality, packages and appointment scheduling etc. These advancements save lot of customer support time for healthcare providers. Additionally, the Ayushman Bharat Digital Mission aims to create a comprehensive health ecosystem through digital interventions. The creation of electronic medical records with unique health IDs is a leap towards the mission which serves as a complete repository of individual health records across multiple health facilities.

As the theory of disruption states, new entrants start gaining footholds in the market by addressing gaps and then move forward to capture sophisticated customers. A curated set of startups are bringing Artificial Intelligence (AI) in healthcare, a big leap towards predictive and proactive data analytics for improving preventive care. Furthermore, tech giants like Apple, Samsung and Google are incorporating and updating health information in wearable devices generating humongous amount of personal health data providing insights for hospitals. The availability of population healthcare data is also growing. Shopping for medicines has become convenient, easy with the arrival of online pharmacy apps that connect the patients to local pharmacy stores. Indians are moving to digital health and wellness platforms for fitness, nutrition and dietary purposes.

As the e-health market is starting to break through, prospects are bright for both existing players and new entrants who can harness these innovations and transform the delivery system. The current system of online consulting can be designed to address missed opportunities. For example in the area of primary consultation, the tradition is to visit the physician for annual check-up, which is an 'occasion'. A potential opportunity is consulting on 'non-occasions' which some consumers may opt for, if it offers a possibility to consult highly-paid specialists at low-cost alternative. Technology enables this for many hospitals and doctors. The idea is to evolve this low-cost model of online consulting, an opportunity to serve consumers more often.

What a Pandora of possibilities exist in this 'e'ra of healthcare!!!

Would you let the Robot take your blood sample??

- Nobin Karthik
MBA II Year

One of the scary procedures done in hospitals is to give blood samples for diagnostic guidance. It's where most of the patients faint at the sight of blood particles. However, the process is done with great care; human errors and spillage of blood samples are possible. What if automation extends its hand to help clinicians and paramedical staffs to take blood samples?

Healthcare professionals themselves often struggle with finding the veins in patients (or can't find the veins at all) as these can be particularly hard to find; for example, when the patient is obese, dehydrated, has certain severe chronic conditions – or simply has small or inelastic veins. In these patients, healthcare professionals only have an average success rate of 73% in finding the veins with the needle. To eradicate such a tedious work, robots come in. This initiative was named “Veebot” which required further technical developments with prevailing accuracy of 82% in vein access.

Source: Vitestro-blood-withdraw-robots

After years of dedication into automation and robotics, Vitestro announced ‘Autonomous blood drawing device, combining artificial intelligence, ultrasound imaging and robotics’, has already performed 1500 blood draws on 1000+ patients. The company will launch pivotal clinical studies in 2023 for regulatory approval, and they expect the device to hit the market in the European Union in 2024.

The robots not just assume the veins but they can see it. A tiring and assumptions in patient's anatomy will be eliminated with this initiative. The trial run shows a positive note with a 58% of patients preferred to use robotic blood withdrawal than human.

WEBINARS ORGANIZED

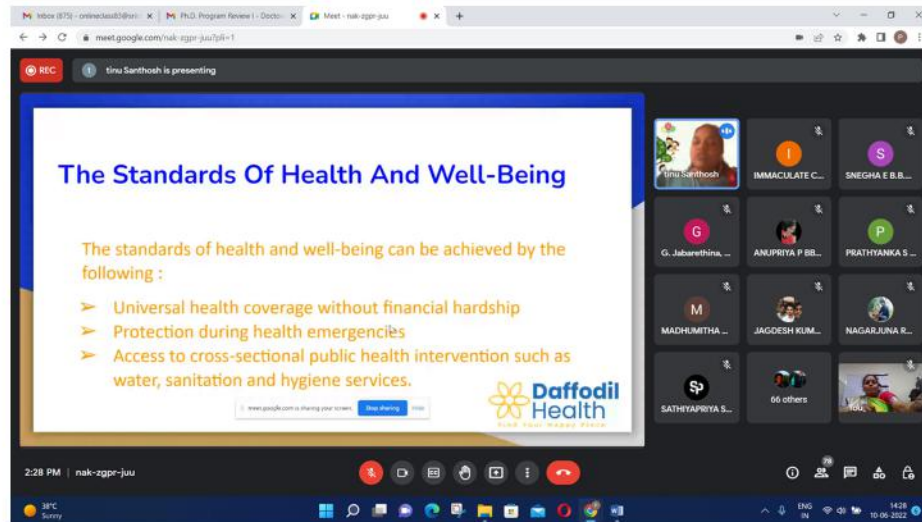

SRFMS conducted a virtual panel discussion on 04th February, 2022 on the topic "Union Budget 2022- Impact on Healthcare sector". Dr. Selvam Jesiah, Principal, SRFMS, welcomed the gathering, Dr. K. C John, Director, SRFMS, set the context of the meeting. The Honourable Vice Chancellor, Dr. P. V. Vijayaraghavan inaugurated the event and Dr. Makesh Vakamudi, Dean of Faculties, SRIHER delivered the special address. Eminent speakers including Mr Abheek Barua, Chief Economist and Executive Vice-President of HDFC Bank, CMA Raju Iyer, President, Institute of Cost and Management Accountants of India, Dr Harsh Mahajan, President, NAT health, Dr Shravan Subramanyam, President and CEO GE Healthcare and MD Wipro-GE addressed the audience on the nuances of Union Budget 2022. Dr Poornima A S, Organising Secretary of the event proposed the vote of thanks.

The poster is for a webinar titled "UNION BUDGET 2022 - HEALTHCARE" held on February 04, 2022. It was organized by the Sri Ramachandra Faculty of Management Sciences with the theme "Professionalism and Beyond". The poster lists two groups of speakers: Inhouse Speakers (Dr. P. V. Vijayaraghavan, Dr. M. K. John, Dr. Selvam Jesiah, Dr. M. K. John) and Guest Speakers (Mr. Abheek Barua, CMA Mr. Raju Iyer, Dr. Harsh Mahajan, Dr. Shravan Subramanyam). It also mentions the organizing committee and provides a registration link: <https://bit.ly/3j1709T>. The program is scheduled for 10.00 AM - 12.30 PM.

SRFMS organized the alumni mentorship program on 05th February, 2022 between 7.30 PM – 8.30 PM through Google meet. The final year students of MBA and alumni who volunteered as mentor were part of the orientation. Ms.K.N.Priya, Alumni coordinator welcomed the gathering and presented the objectives of Alumni Mentoring. The program mission, goals, roles and responsibilities of mentors, program expectations, introduction of the mentors were followed by question and answer session. A total of 45 participants which includes alumni mentors, students and faculty members were part of the orientation. Alumni mentors shared their experiences and learnings with the students. The expectation of the program was to connect the current students with alumni mentors for career guidance, placement and other futuristic plans of the students. The orientation ended with a thanks note to all the alumni mentors, students and faculty members. The alumni mentors were Ms.Vidhya.V, Ms.Abhirami Ravikumar, Mr.R.J.T.Nirmalraj (Batch 2001-2003), Ms.Pakiyalakshmi (Batch 2002-2004), Ms.Tinu (Batch 2003-2005), Mr.Ahamed Sahib (Batch 2005-2007), Mr.Sivabalan.G, Ms.Vidya Mani (Batch 2006-2008), Mr.V.R.Haribalaji & Ms.Shridevi Seshadri (Batch 2010-2012).

SRFMS organised an alumni talk on 10th June, 2022 on the topic “Role of Administrators in Mental Health”, by Ms. Tinu Anna Sam (2003-2005 batch), who discussed the role of administrators in mental health for budding healthcare professionals. She also explained skills requirements and opportunities in mental health.

EVENTS CONDUCTED

MBA II year students along with two faculty members visited MSME clusters on 25th February, 2022 at Chennai Plastic Cluster, Sriperumbudur.

SRFMS and Sri Ramachandra Medical Centre in collaboration with Urban Primary Health Centre, Triplicane conducted a medical camp for Urbaser Sumeet employees on 08th March, 2022 at Community Hall, Triplicane. They received free consultation in General Medicine, Dermatology, Gynaecology, Orthopaedics and Ophthalmology. The camp provided a direct exposure to community and helped them to learn and apply their academic knowledge to harness their leadership qualities, social accountability, community engagement and inter-sectoral collaboration.

Dr.A.Subhashree and Ms.S.Nithyapriya, Assistant Professors from SRFMS addressed X, XI and XII students of Anandavalli Matriculation Higher Secondary School on 22nd March, 2022. The discussion on career guidance, communication skills, cyber-crimes, humanity were helpful for today's young generation students.

Dr.A.Bhooma Devi, Associate Professor, organised a workshop by Dr. K. C. John, Director, SRFMS on “Business Model Canvas” at Sri Ramachandra Faculty of Public Health on 30th April, 2022.

SRFMS organised a hybrid mode course on Research – “Qualitative and Quantitative with designing of questionnaire and its validation” under the co-ordination of Dr. A. Bhooma Devi, Associate Professor for Ph.D. scholars, faculty members and other research aspirants. The program was run between 31st May, 2022 to 21st June, 2022 with gaps in between for practice sessions to be prepared by the participants.

Dr. A. Bhoomadevi organized and coordinated the activity on “Build up Outdoor Classrooms and healthy open places on Campus” on the occasion of World Environment Day, 5th June 2022 with the theme “Only One Earth!” - Activity conducted on 3rd June, 2022

ISABS – Indian Society for Applied Behavioral Science conducted Human Process labs for I MBA students (Batch : 2021-23) from 24th April, 2022 to 29th April, 2022 at Mamalla Beach Resort, Mamallapuram. ISABS utilized T-group (Training group) and experience-based learning to make the students understand themselves and discover more creative and satisfying ways of relating with one another and working.

STUDENTS' ACHIEVEMENTS

Ms.Jessin Raju, III BBA, received 2nd place in the 4*100 relay conducted at Saveetha College on 24th February, 2022.

Ms.Akshaya R.B, III BBA was appreciated for article publication in “Indian Journal of Applied Research” on the occasion of NATIONAL SCIENCE DAY -2022 conducted by SRIHER (DU) from 28th February, 2022 to 5th March, 2022.

Ms.Rashmi, Ms.Varshini, Ms.Joy Deepika, Mr.Nobin Karthick and Mr.Chandramouli of II MBA, did a live project - Process improvement in Operation Theatre at Apollo Hospitals, Greams Road, Chennai from 1st March, 2022 to 11th March, 2022.

Ms.Hinduja, III BBA, received 2nd place in the event of U-21 Female Kata in the 1st SIKF South Zone Karate Championship for Cadet Junior Under 21 & Senior held at Hyderabad on 5th and 6th March, 2022.

Ms.Hinduja, III BBA, SRFMS received 3rd place in the event of Senior Female Kumite- 61kg in 1st SIKF South Zone Karate Championship for Cadet Junior Under 21 & Senior held in Hyderabad on 5th and 6th March, 2022.

Ms.Akshaya R.B of III BBA won the first prize in group dance and second prize in debate & flag area in 7th Cado Alpha 2022 organized by Alpha Arts and Science College from 30th April, 2022 to 1st May, 2022.

Mr.Arunkumar, II BBA, participated in monthly tournament conducted at Fireball Elite Badminton Academy, Anna Nagar on 15th May, 2022 and received a participation medal.

Ms. Rohini, II BBA, presented an article on "The COVID- 19 impact on Indian Health care Industry and recovery measures" in the International Online Seminar organized by Department of Management Studies, Nehru Institute of Technology, Coimbatore, Tamilnadu on 17th and 18th May, 2022.

Ms. Shanmukhi. C from II BBA secured 321 marks of 340 in the GRE exam conducted on 3rd June, 2022.

Ms. Zerine Ziaudeen, Research Scholar, received 80% scholarship from dignity health global education to enroll for the Certificate course on Healthcare Analytics for Decision Makers from Pepperdine Graziadio Business School, Los Angeles, California. The course was successfully completed and she received the certificate on 25th April, 2022.

STUDENT ENTREPRENEURSHIP

Ms. Abitha of BBA III year registered her startup company "CRAZY BAKERS" with Food Safety and Standards Authority of India.

Registration Certificate
Government of Tamil Nadu
Department
(Food Safety Wing)
Food Safety and Standards Authority of India
Registration Certificate under FSS Act, 2006

Registration Number: 22422246000526

1. Name and permanent address of Food Business Operator (FBO)
Abitha / Crazy Bakers
no 85 krishna nagar 2nd street
maduravoyal, Villivakkam block Ward-150,
Thiruvallur, Tamil Nadu-600095

2. Address of location where food business is to be conducted / premises
no 85 krishna nagar 2nd street
maduravoyal, Villivakkam block Ward-150,
Villivakkam block Ward-150, Thiruvallur,
Tamil Nadu - 600095

3. Kind of Business
Petty Retailer of snacks/tea shops

4. Photo Identity Card
N/A

This Registration certificate is issued under and is subject to the provisions of FSS Act, 2006 all of which must be complied with by the petty food business.

Place Thiruvallur
Issued On 22-04-2022 (New Registration)

ABOUT SRFMS

Sri Ramachandra Faculty of Management Sciences (SRFMS) is a unit in Sri Ramachandra Institute of Higher Education and Research (SRIHER), a Deemed to be University (formerly known as Sri Ramachandra University), ranked among the top health sciences universities in India. SRIHER has been accredited (cycle-3) by National Assessment and Accreditation Council (NAAC) with A++ Grade and placed in category-I Universities in India by the UGC and ranked 48 among Universities in NIRF-2022. SRFMS, established in the year 2001, is one of the leading management hubs in India offering very unique programs in the field of Hospital & Health Systems Management.

SRFMS offers a Two-year Full Time MBA (Hospital and Health Systems Management) programme approved by AICTE, New Delhi in December, 2001 and a three-year B.B.A. programme in Hospital and Health Systems Management, under Choice Based Credit System, with a wide range of electives to suit industry requirement. It also offers full time and part-time Ph.D programmes. Teaching and learning process is characterized by strong practical exposure thanks to summer internship, hands-on posting and project work. Two hospitals, SRMC & University Hospital within the campus are a great advantage providing hands-on training to students. Visiting faculty members from IIMs and IITs add a great value to the academic standing of SRFMS.

SRFMS has been rated as one of the best management schools in the State by Business Standard B-School Survey, since 2018. It has continuously been placed under “Platinum Category” by AICTE-CII Industry-Institute Survey since 2019. It forges partnership with outstanding academic institutions and healthcare organizations like ICAI, XLRI, Qur Health, Mellon Ai to learn and acquire knowledge and practices for the benefit of students and fosters collaborative research and training for mutual benefit. The faculty has now stepped up to offer executive education introducing a One-year Executive Diploma in Healthcare Management for working healthcare professionals.

Vision:

To make the Sri Ramachandra Faculty of Management Sciences, a potential, global centre of excellence in education, healthcare and research.

Mission:

To educate and develop individuals to be professionally ethical and socially responsible

To provide a culture of care and empathy committed to innovation and adoption of new and cost-effective technology.

To undertake quality research, consultancy and training programs

To collaborate with stakeholders for support and participation in its program in education, service, outreach and research.

To strive for the promotion of health and wholeness in individuals and the community at large, with special concern for the differently-abled and underprivileged
